

Kirtland AFB water quality report

Federal and state drinking water regulations for consumer confidence reports mandate that community water systems, such as the water system Kirtland AFB operates and maintains, report water quality to the using public annually. The Kirtland AFB CCR is available on the Kirtland AFB website at www.kirtland.af.mil/, “2009 Annual Consumer Confidence Report on Drinking Water Quality.” The Kirtland AFB water supply is occasionally supplemented with water from the Albuquerque Bernalillo County Water Utility Authority. The ABCWUA CCR is available for review at www.abcwua.org/content/view/446/714/.

For questions about the Kirtland AFB CCR, call the Kirtland AFB Bioenvironmental Engineering office at 846-4259 or the Kirtland AFB Water Quality Program Manager at 853-5443.
