Hazardous Waste Bureau (HWB)
New Mexico Environment Department (NMED)
2905 Rodeo Park Road
Santa Fe New Mexico 87505

Dear Mr. Kieling

Kirtland Air Force Base (KAFB) is requesting an extension for the submittal of the *Quarterly Pre-Remedy Monitoring and Site Investigation Report for April - June 2012, Bulk Fuels Facility Spill Solid Waste Management Units ST-106 and SS-11*. The current delivery date is 28 Sept 2012 and we are requesting an extension until 19 October 2012 in order to overcome unexpected delays in processing the report.

A number of unanticipated events experienced by Shaw Environmental have occurred during the document preparation that necessitate this request for extension. The contracted lab performing the lab analysis conducted a periodic reporting limit evaluation which resulted in an increase in the Detection Limit and Limit of Quantization for the analysis of TPH-DRO resulting in a requirement for additional time in data processing and reporting. A discussion of this will be included in the quarterly report. Additionally, a server upgrade resulted in the loss of several days of preparation due to database access issues delaying the ability to process data and generate the required tables and figures for the subject report.

Your consideration of this matter will be greatly appreciated. Please contact Ms. Victoria R. Martinez at (505) 846-6362 or at victoria.martinez@kirtland.af.mil with any questions you may have in regard to this submittal.

Sincerely

JOHN C. KUBINEC, Colonel, USAF
Commander
